

TRANSITION TOWNS

building localised economies
and community resilience
from the ground up

Training for Transition Workshop

This workshop is both a practical and informative introduction to the logic and framework of the Transition Towns model. This grassroots international movement builds localised and resilient communities in response to climate change and peak oil. The workshop is both informative and experiential, weaving together practice and theory and the Transition required at both the personal and community level. The feedback from participants overwhelmingly states that this two day interactive workshop offers key insights, understandings, and the awareness to help them in contributing to the journey toward a positive and abundant future.

When?

Saturday 26th &
Sunday 27th September
9.30am to 5.30pm

dietary requirements.

Training for Transition provides participants with:

- the current global context for Transition Towns and the transformational possibilities
- an in depth look at the Transition Towns model: the underpinning principles, key steps, processes & strategies
- understanding of the purpose and logic of the Energy Descent Action Pathway (EDAP)
- the experience of a joint visioning process
- understanding of how to organise effective meetings and utilise innovative processes
- valuable connection with other Transition Initiatives
- a plan of action for themselves and their community

The Presenters

Janet Phillips & Jacinta Walsh are part of a select group of officially recognised Transition Town Trainers worldwide and are initiators of their local Transition group, Transition Mount Alexander in Castlemaine, Central Victoria. Jacinta and Janet have an extensive background in behaviour change and community development processes. Combined with their knowledge of adaptive governance, innovative group techniques, skills as facilitators and trainers, the inspirational approach of the Transition Town model offers a unique and inspiring workshop experience.
